

Cookies Policy

We use cookies on this website. A cookie is a small text file which identifies your computer on our server. Cookies themselves do not identify the user, only the computer being used. Cookies are not used to collect personal information.

At any moment, the user can configure their browser to accept all cookies, to be notified when a cookie runs or to not receive any cookies. The way this is done depends on the browser used. Please see the function «Help» on your browser. If you accept cookies, they may remain on your computer for many years, unless you delete them. If you choose not to receive any cookies you may not be able to use certain features of the website. Here is a list of the main cookies we use and their function.

The types of cookies used on this website are the following:

- **Required Cookies** (we use these cookies to provide essential features, such as ensuring correct navigation between pages)
- **Analytical Cookies** (we use these cookies to analyse how users utilise the website and monitor its performance. These cookies are merely utilised for the purposes of statistical creation and analysis, without ever collecting personal information)
- **Session Cookies** (these are temporary, which remain in the cookies of your internet browser until the user leaves the website)

You can find a complete list of cookies used here (Cookies Report).

Web browsers allow you to exercise some control over cookies through your browser settings. Most browsers allow you to block cookies or block cookies from specific websites. Browsers can also help you clear cookies when you close your browser. However, you should be aware that this may lead to the loss of any exclusions or preferences defined on the website.

To learn more about cookies, including how to see which cookies were created and how to manage and delete them, visit www.allaboutcookies.org which includes information on how to manage your settings for the various browser suppliers. You should note, however, that disabling cookies may affect, in part or in full, your browsing experience on the website.
